

## CLEAN UP MOUNT VERNON

A new street sweeper has been recently purchased by the city to help keep our streets clean.

We just want to make sure all the streets gets extra attention to get our neighborhood streets clean.

**New Street Sweeper** – Streets & curbs are already looking much better. Very Noticeable on 4<sup>th</sup> & Main Streets.

**How can you help -**

- Please do not direct grass clippings into street. It is harder to sweep and if it washes into storm sewer it creates problems.
- Do not pile limbs and other yard waste in the street.

We do not have a specific schedule at this point, but it would help if Vehicles were not parked in same location for extended times.

Please check back frequently for other updates.
